

## What families say about us

*"We have enjoyed this school for over 10 years, with 3 children having attended. Rhythm Makers, Merry Music Makers, Group Piano, and Private Piano and Guitar. It has been truly amazing what my children have learned. They are not just instructors but have become dear friends as well. This is an awesome music school that has also made a positive impact on their academics. The school offers such a variety of music for all ages. What a blessing to have them become part of my children's lives."*

**Christi Diamond**  
Southlake, TX

*"This school has had such a positive influence on my children, we will remember her for years. Out of all of our extracurricular activities, the classes at The Master's Touch are our favorites!"*

**Kristin Jesser**  
Southlake, TX

*"My daughter started at the Master's Touch before she was 1 year old. Now she is almost 9, and can't wait for music class every week."*

**Claire Doddridge**  
Southlake, TX

## About our School

At The Master's Touch School of Music and Performing Arts, LLC we take a personal interest in the success of each individual student. We have been servicing the community with quality musical instruction for over 25 years. We pride ourselves on employing the very best instructors who excel in music education, knowledge and talent. It is important no matter the age of our students that they leave the classroom feeling a sense of accomplishment. The school is open Mon-Fri: 10am-9pm and Sat: 9am-4pm.

## What We Offer

- Private lessons In: Piano, Voice, Guitar (acoustic & electric), Bass, Ukulele, Trumpet, Euphonium, Violin, Drums, Chess Lessons and French Tutoring & Lessons.
- Group Piano: K-3rd
- Drum & Percussion Class

## Music & Keyboard Explorers

Language, movement and rhythm skills are used to develop mental concentration, coordination, team work, social & verbal skills, and self esteem while building a foundation for any future pursuit may it be music, sports or dance related. Students enjoy developing musical ability through singing, puppets, music activities playing rhythm instruments, African drums, wood-blocks, and more. ....*The Learning Never Stops!*

*\*First semester will build music skills through fun & creative ways learning about the orchestra, music composers, & basic music skills.*

*\*Second Semester (January) students will start "My 1st Piano Adventures" keyboard curriculum.*

- Students must be 3 yrs old by July 1, 2016 and potty trained.
- Students must be able to be in class without parent.
- Grand Finale at the end of each semester that will showcase the students' talents.
- A great class to see if your student will be ready for piano or instrumental lessons in the future.

**Come for the FUN,  
Stay for the Education!**

**Wednesday 11:00-11:55 am**

**Cost: \$92 per month**

**\*Currently enrolling NOW!**

**\*\*Great class for friends to enjoy together!**

## Meet the Instructor

**Karen Kite** is a gifted piano teacher & musician who began her music studies with piano lessons at a very young age. She admits to not being overly joyful about piano lessons as a younger student and therefore feels the importance for her students to enjoy their lessons and maintain pride in their accomplishments each week as they leave her studio. Karen is grateful her parents remained firm in their convictions and kept her in music for many years. She studied piano performance and music theory where she excelled in all Piano Guilds at Hardin Simmons University. Karen still strives to identify each student's individual learning style and prepares lessons accordingly.

Karen enjoys seeing student's excitement when mastering a new song, and loves celebrating with them when they conquer a new technique or musical concept. **Karen also has a passion for teaching visually impaired, autistic, dyslexic and prodigy students.** In addition to her many years of teaching experience, she is also a published songwriter of Christian and Children's songs and is a published vocal recording artist. Karen's students will enjoy the enthusiasm and positive approach she brings to both her private lesson students and her group piano classes.

There is no such thing as a bored student in Ms. Karen's classes. As a teacher, her goal is to instill in her students the importance of never giving up on what may appear to be difficult at the time because what we once thought to be difficult today, we may very easily come to love tomorrow.

*Benefits of Early Childhood Music:  
Music's melodic and rhythm patterns awaken and stimulate neural pathways in the brain that help develop memory, math skills, and powers of abstract and creative thinking.*
